Aviram Harp Guitar - Duration: 3:00;.... Aviram's music has a strong artistic and cultural importance across the Arab World. It is one of the few instruments that has been extensively preserved.

Aviram's instrumentation makes for a rich, powerful, and distinctive sound, Unlike the traditional instruments found in other Arab countries, such as the oboe, the eer, At the beginning of the decade, it was an instrument rarely heard. However, with the construction of the State of Israel, Aviram's instrument found its basis with a professional orchestra and sound track recordings of his songs.

Aviram saw his instrument become a true means of expression, and used it to capture the feeling of his songs, And the echoes of his songs still reverberate in the lives of many Arab people. Aviram Â·

checkboxes and then uncheck the rest This is the script I have. I have 12 checkboxes, each representing a category. When a checkbox is checked, it adds 12 to a score. If any checkbox is checked, the score is added up and the original score decreases. I want to write a function that will return true if more than one checkbox is checked. I have tried the following:

```
$('#input[name="catcheck[]"]:checked').length > 0 I also tried this: var more_than_one =  
$('#input[name="catcheck[]"]:checked').length if (more_than_one > 1) The problem is, I get the error  
'Uncaught
